

## ERRATA

Page 4-10, last paragraph: Based on discussions and analyses during informal consultation, including the development of conservation measures, determinations were made that the Proposed Action would have a "May Affect-Not Likely to Adversely Affect" for **31** species and a "No Affect" for the remaining **27** species (Table 4.1).

Table 4.1, page 4-11:

12. Lesser prairie chicken	Tympanuchus pallidicinctus	C	No	<b>NLAA-- Beneficial Effect</b>
----------------------------	----------------------------	---	----	-------------------------------------

Appendix C: Some conservation measures have been added and others have been modified. Refer to the Biological Evaluation for the most current list of conservation measures.
